

INFERRING

Inferring is using the text and your background knowledge to “put the pieces together.” What do you think?

I infer by.....

- Using clues form the text
- Thinking about what I already know
- Thinking about my own experiences
- Thinking about what a character says
- Thinking about how a character feels
- Thinking about a characters actions
- Thinking about how a character handles change
- Thinking about how a character handles conflict

What do you observe in this picture? What details do you notice? What do you see when observing it "closely"?

What inferences can you make based on what you see in this picture?
